

List of Galveston Laboratory Publications  
February 27, 1998

Articles in this Publication List are numbered for ease of linking to their PDF-file number. Quality of scanned articles varies due to the condition of their file copy. Files with color or black and white photographs are large, however, it was deemed appropriate to scan these in color or gray scale for the benefit of the viewer. File copies were not available for all publications. These are noted.
